Portfolio

Fakhri Rachfian Ramanov - Fresh Graduate
Information System Binus University

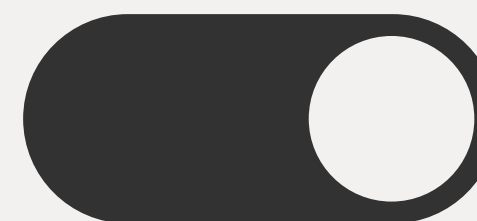

About Me

I am a fresh graduate in Information Systems from Binus University with a passion for creating innovative digital solutions. Skilled in system analysis, UI/UX design with Figma, and database design using SQL, I enjoy building dynamic and user-friendly website. I aim to apply my technical and creative skills to develop impactful, user-centered applications.

Education

Binus University (2021 - 2025)
Sarjana Information Systems
GPA: 3.76

SMA Islam Al Azhar 3
Social Sciences

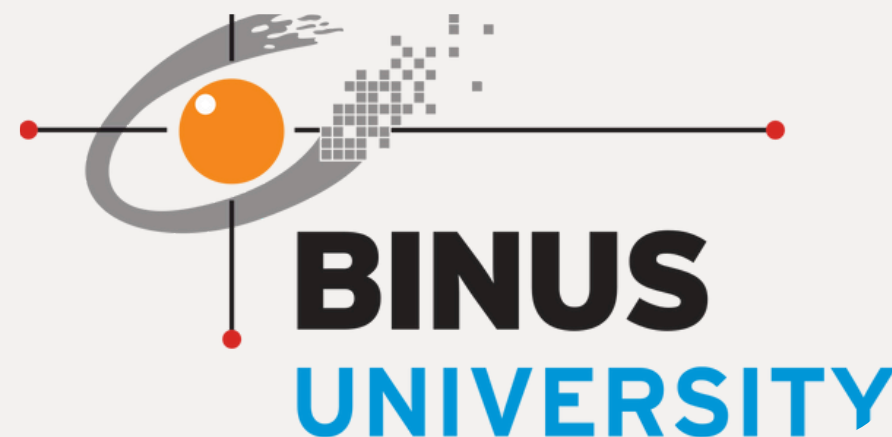

Pengalaman Kerja

PT Tunas Sawa Erma

System Analyst Intern Sept 2024 -
Feb 2025

Binus University

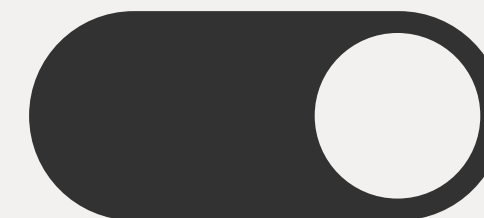

Project Management Intern Mar
2024 - Jul 2024

PT Tunas Sawa Erma

System Analyst

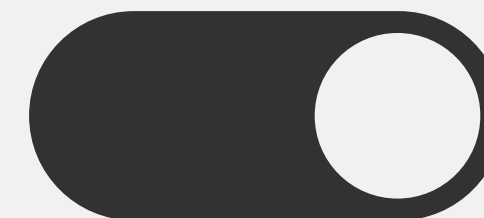

Intern

- Handled SAP FI/CO development and documentation, including creating detailed records for custom FI TAX programs, TCODEs, methods, and Smartforms.
- Developed and structured the ZFI Menu and Program for Finance & Transaction Controlling, optimizing master data organization and system navigation.
- Configured FI/CO modules, covering master data, profit centers, cost elements, and activity types.
- Assisted in defining assessment, distribution, and COPA cycles for accurate financial reporting.
- Managed FCM master data such as Chart of Accounts (CoA), General Ledger, bank, asset, and tax records, ensuring data integrity and consistency.
- Restructured the List API BNI SAP for seamless system integration.
- Supported DJP Coretax reporting by preparing compliant XML and Excel submissions.
- Conducted a comparative analysis of Plantation Module (OPIM) software features to support decision-making for system improvements.

Binus University Project Management Intern

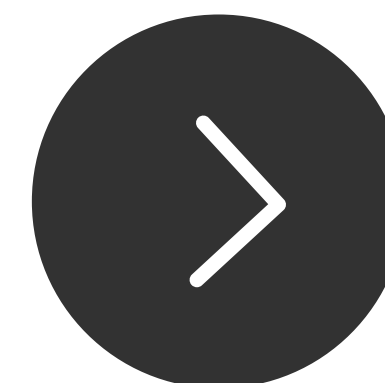

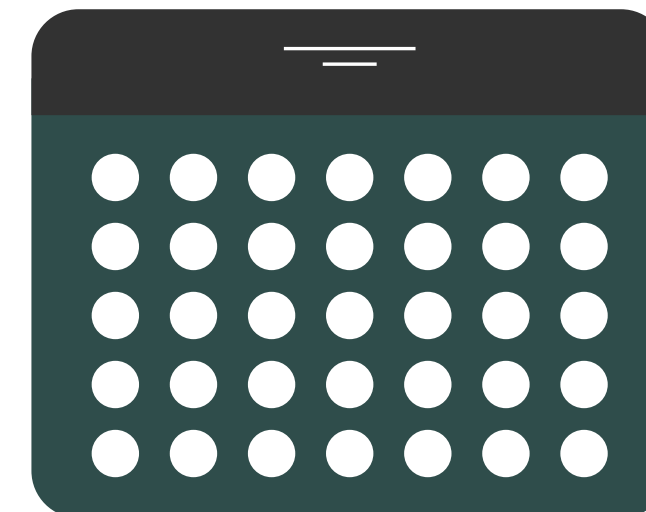

- Managed client projects by overseeing the end-to-end development and design of WordPress websites tailored to specific requirements, ensuring timely delivery and high-quality results.
- Designed user-friendly and visually appealing interfaces, emphasizing both aesthetics and usability to enhance the overall user experience.
- Executed full-scale redesigns of existing websites, improving functionality, visual appeal, and performance to increase user engagement.
- Developed robust and scalable applications using Laravel, applying best practices in coding standards, architecture, and system design.
- Mentored participants in a Binus UI design competition focused on developing web and mobile applications for innovative business ideas. Provided guidance on design principles, usability best practices, and constructive feedback to help refine their project outcomes.

Proyek Saya

Project

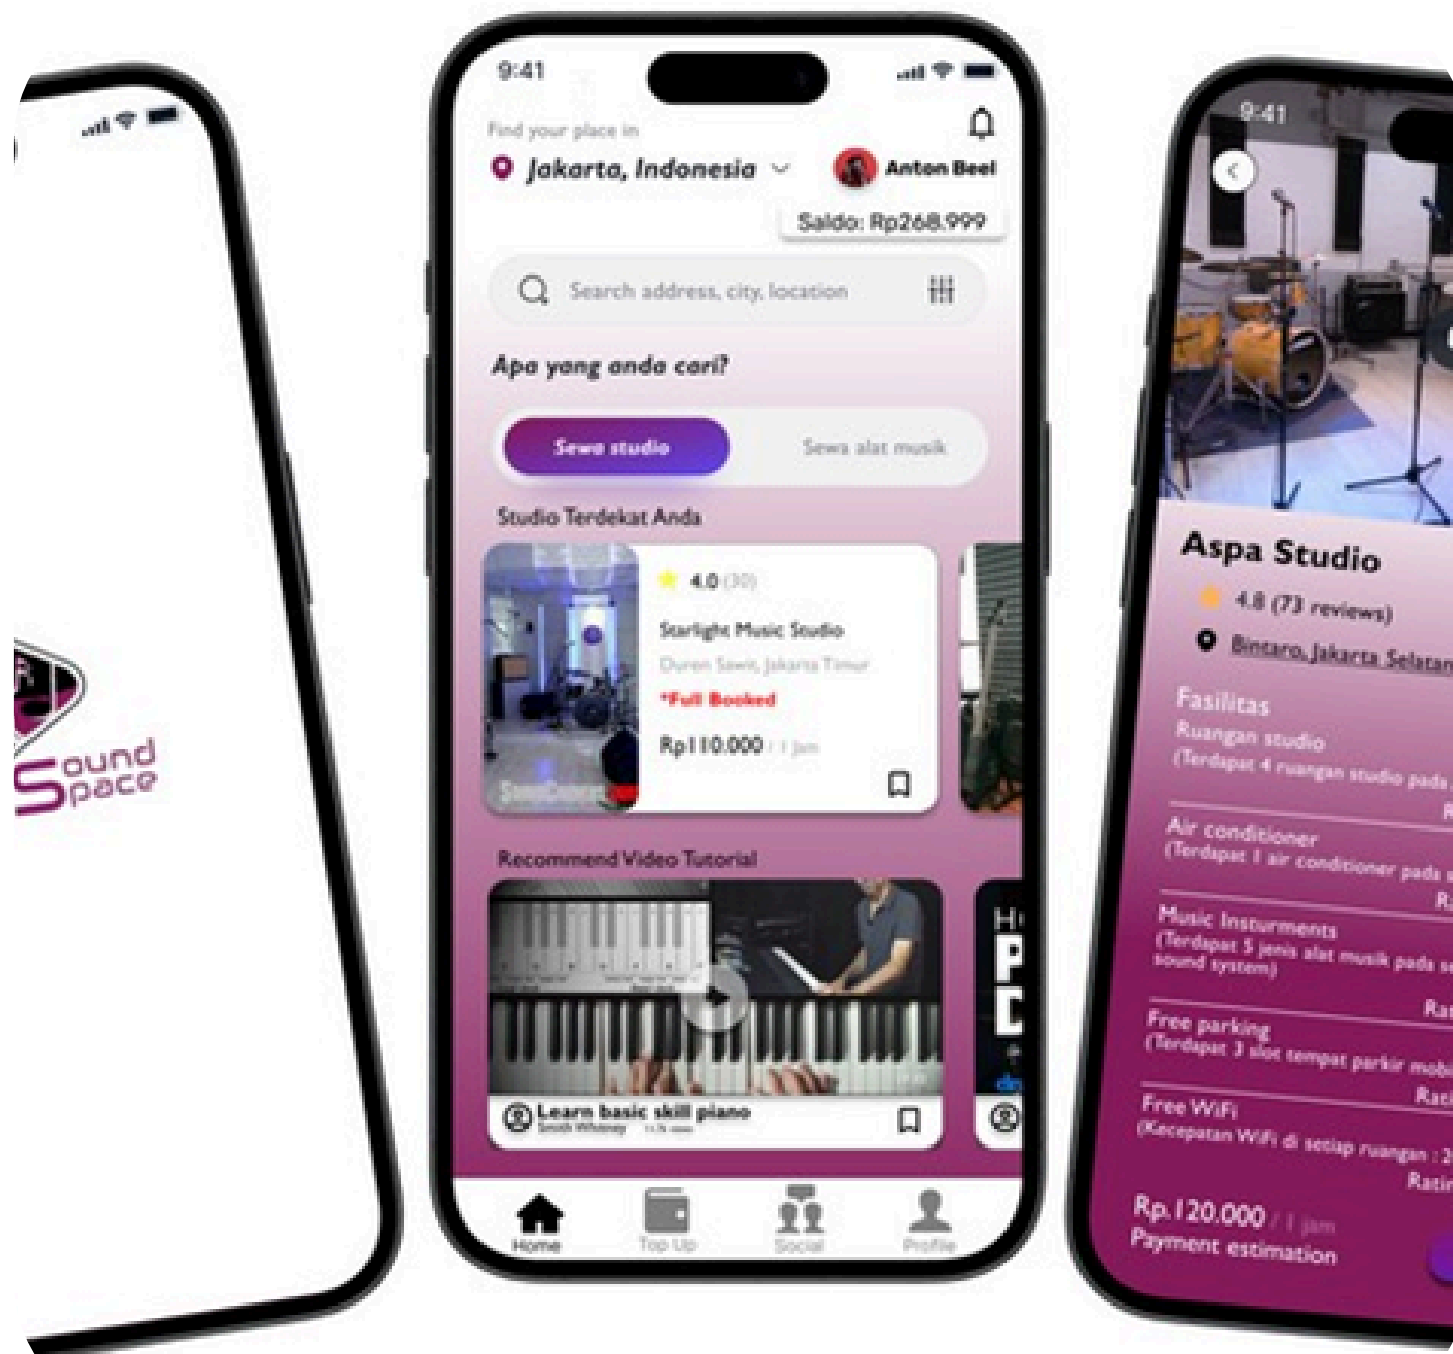

Proyek Saya

Sound Space

UI Design

An application that provides music studio rentals, musical instruments.

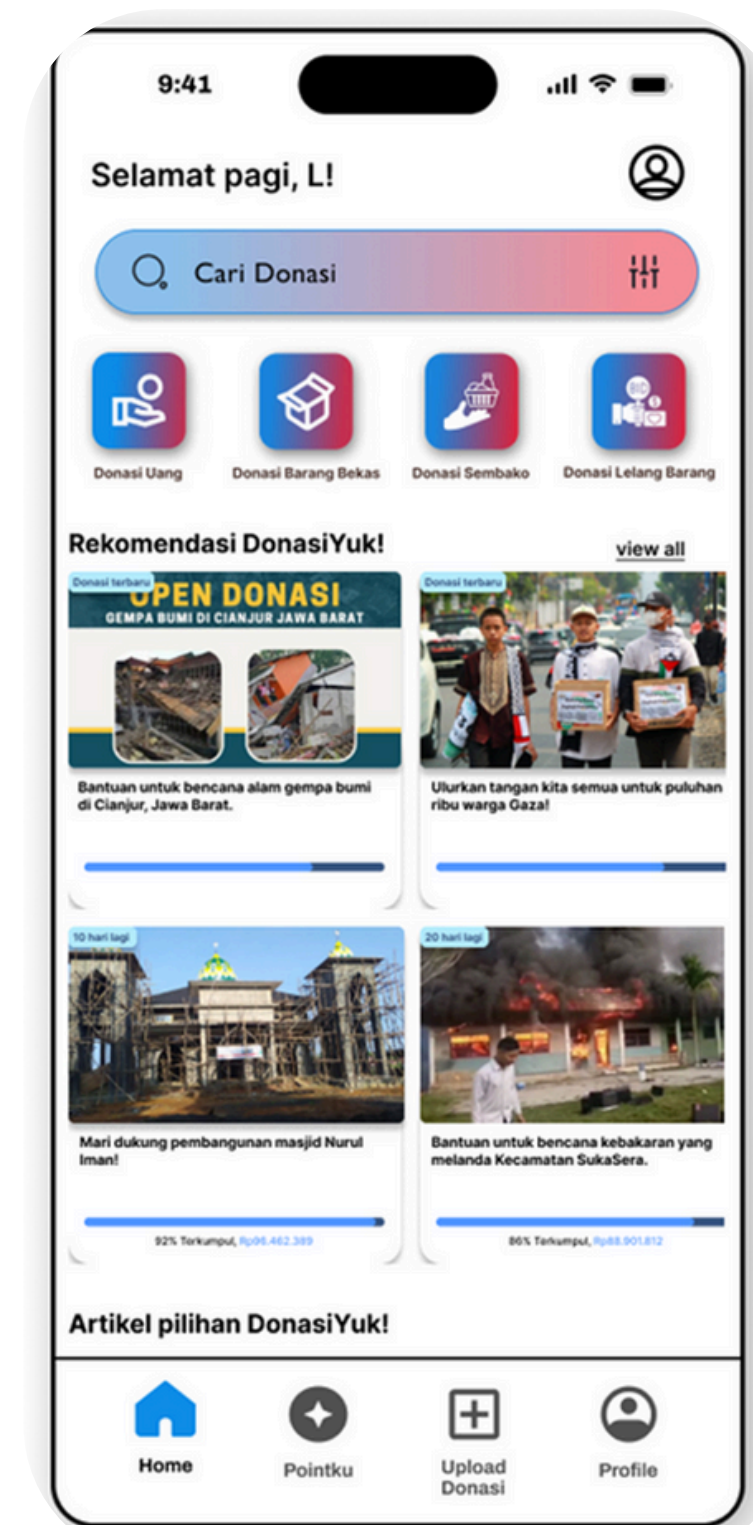

SoundSpace

DonasiYuk!

UI Design

A donation app unlike any other. Users can auction items, and the proceeds can then be used for donations. It also offers several features, including cash donations, used goods donations, basic food donations, and auction donations.

Re-Design Website Taman Wisata Matahari

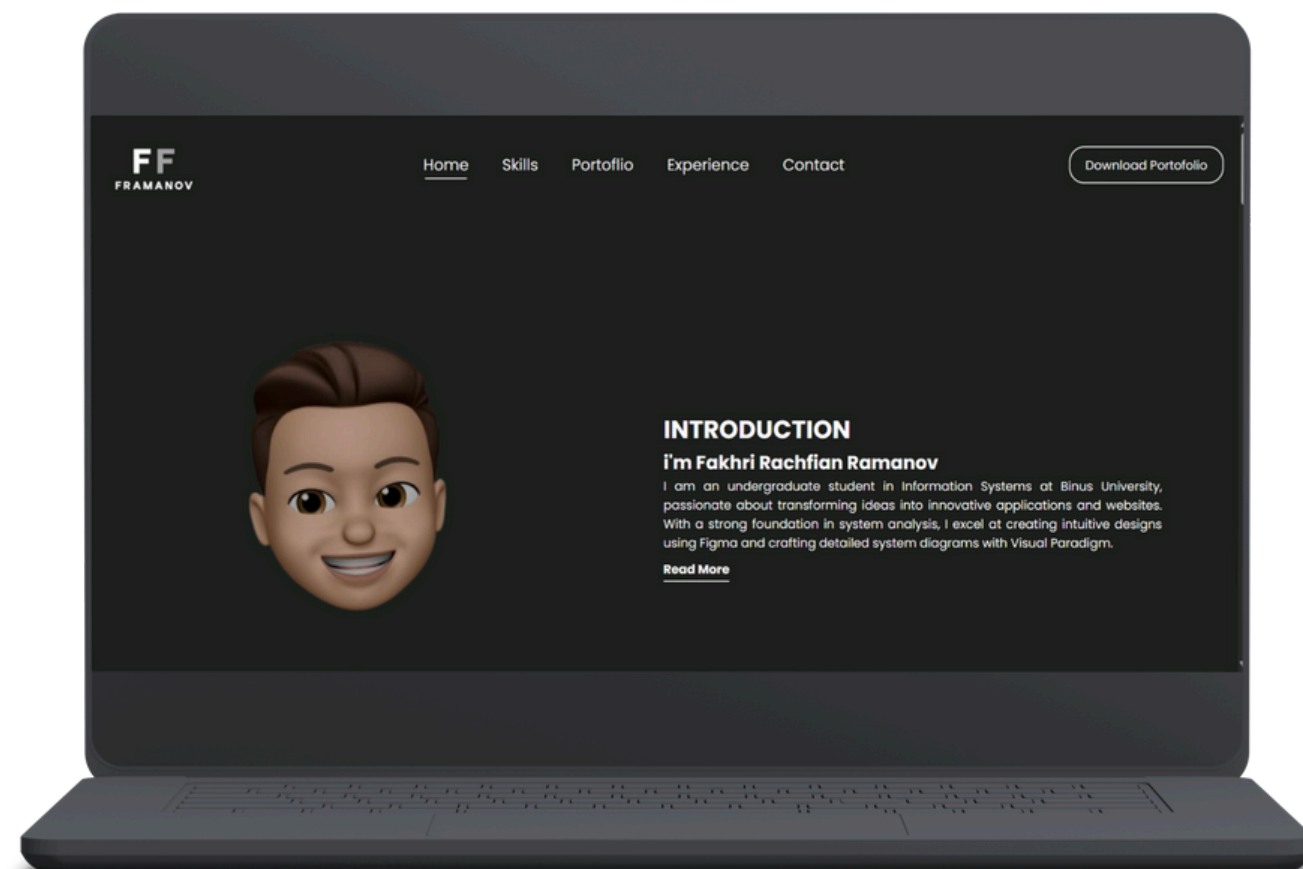

[View here](#)

UI Design

I found that the Taman Wisata Matahari website had shortcomings in terms of UI and UX. Therefore, we redesigned several sections, including the homepage and contact page, and added an online ticket purchasing feature that wasn't previously available.

Portofolio Web

[View here](#)

Web Development

A personal portfolio website built using HTML, CSS, and JavaScript to showcase my profile and professional journey. The website features sections such as About Me, Skills, Projects, Education, and Work Experience, designed with a clean layout and responsive interface to provide an engaging user experience.
